SECTION I
REPEAL

02-16 - 1.1 - Repeal.

Ordinance 00-10, passed and adopted on September 12, 2000, is
hereby repealed.

SECTION II
SHORT TITLE

02-16 - 2.1 - Short Title.

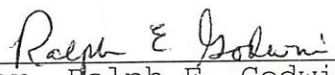

This ordinance shall be known as the "Sign Ordinance of the
Town of Interlachen, Florida" and is adopted pursuant to Chapter
125 and Chapter 163 of the Florida Statutes.

SECTION III
PURPOSE

02-16 - 3.1 - Purpose.

The purpose of this Ordinance is to regulate the erection,
location and maintenance of signs in order to protect the public
health, safety, morals and welfare of the people of this community.
The safety of motorists, cyclist, pedestrians, and other users of
the public streets is affected by the number, size, location,
lighting and movement of signs that divert or attract the attention
of drivers.

Chairman, David E. Trout, 3rd

Mayor, Ralph E. Godwin

Additionally, the construction, erection and maintenance of free standing signs as well as signs suspended from or placed on the tops of buildings, walls or other structures may constitute a direct danger to pedestrian and vehicular traffic, especially during periods of strong winds. Moreover, uncontrolled and unlimited signs will result in negative visual impacts and degrade the aesthetic attractiveness of the natural and manmade attributes of the community and thereby undermine the health and welfare of the community, as well as the economic value of tourism, visitation and permanent economic growth.

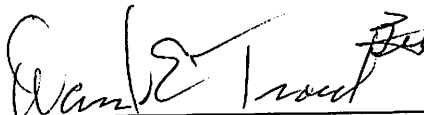

SECTION IV

2) Maintenance.

All signs, including their supports, braces, guys and anchors, electrical parts and lighting fixtures, and all painted and display areas, shall be maintained in a safe condition, and shall present a neat and clean appearance. The vegetation around, in front of, behind, and underneath the base of ground signs for a distance of ten (10) feet shall be neatly trimmed and free of unsightly weeds, rubbish and debris.

3) No sign shall be erected, or any existing sign operated where illumination is not shielded either to prevent beams or rays of light from being directed at any portion of the traveled right-of-way, or to prevent any driver from seeing a sign's point light source.

4) All signs, except signs where the top of the sign is less than eight (8) feet from the ground and less than sixty-four (64) square feet in size or marquees, shall be top-lighted with the point light source shielded and aimed downward.
